From Lady Osler to Sir Wm. Hale
White.

13, Norham Gardens,
Oxford.

Script.

Jan. 25.

Dear Sir William,

I shall be delighted of course to send you a photograph of Sir William. There are some on order and directly they come you shall have one.

How kind you were in coming to him! That long trying illness seems like a bad dream now and all his predictions to me coming true as they did seem almost supernatural. I feel the strain rather now, but am sleeping better the last week.

^{McCrae}
Dr. ~~McCrae~~ came over at my request to make the arrangements about the text book and will take all the sections back with him to work on the completion of the new edition. I think you will be interested to hear this.

Kindest remembrance to Lady Hale White believe me most gratefully.

Grace R. Osler.
