Dear Harvey

Have got your letter about the Ode book, forwarded to him here. I don't believe she got around to answering it, for she has been in a private hospital here in charge of your friend Dr de Martel.

She is doing well & expects to be released on Saturday & next week

Did you know that my
dear mother died suddenly
the very day Mr sailed from
N.Y. ? We got the news by
wireless - It has been
a tough proposition for me,
but I cannot regret
bringing Maere here, for
these doctors are interested,
they are resourceful & they
understand her tempera-
ment, & I feel sure that
they are going to send her
home restored in health.

Love & Gratitude
from my nursing

We have sent over to the
Oxford Press for a copy
of your life of the Chief
& Mabel is counting on
it to make her stay
at Salies bearable & I'm
sure it will -

This is a somewhat
blatant acknowledgment
of your letter, but I know
you will appreciate the
circumstances -

is to go to Salies de
Béarn in the Pyrenees
for a three weeks cure.

Dr Heitz Roger (the chef
d'orchestre) wants her
to stay over here all
summer, so I am sailing
on May 30 to get my
children & bring them
over here so that we
can all be together,
Returning in September.
