Dear Harvey

I wrote to the actual editor of the N.Y. Herald Tribune Sunday literary supplement BOOKS (in which I edit a department "Notes for Bibliophiles") and asked them to try to get Dr. Welch or Garrison to review your Osler, if they could. In reply I learn that Stuart Sherman, the chief Editor, intends to make your book the subject of one of his leading articles very soon--so that you will receive good treatment there I am sure---and you most certainly deserve it in ever respect and for every reason.

Cordially yours ever,

Leonard
