DR. HARRY I. WIEL

BUTLER BUILDING

SAN FRANCISCO

June 4. 25

My dear Dr. Cushing, -

I am sure you are surprised with words of appreciation of your masterly biography of the blessed chief. Pray accept mine too: the glow we old Hopkins men get from Osler and you is our own peculiar privilege.

May I ask a tremendous favor? I have in my possession several (at least two that I think of at the moment) letters or cards from Dr. Osler which I wish to paste in the biography. Your autograph

I have not, but you were my Teacher too and
if I could join your signature with his in
the book I should be happy indeed and the
book I hope would descend down my family as
an heirloom of heirlooms. Won't you?

With kindest regards

Very sincerely yours

Samuel Lewis
