My dear W. Cushing:

As you asked me to express
to you my delight in your
great life of Osher.

You make him live in your
pages so that I, who never saw
him, have him live a brother.

What a life he lived,
How his sympathy went out to
every man, woman & child he
came in contact with.

It is a liberal education in medicine
& had you work.
Every medical student should own it.

Very truly yours,
Enos H. Bigelow
