Dr. Harvey Cushing  
Peter Bent Brigham Hospital  
Boston, Mass.

Dear Dr. Cushing:

A friend gave me your Life of Osler for my recent birthday. I am enjoying it tremendously, not only for the interesting facts set forth, but the unusual charm of the style employed. I am sure that the profession and all who are interested in the lives of great men will derive great enjoyment from the perusal of these volumes and will be inspired to make better use of life.

We owe you a debt of gratitude for your work in presenting a full account of Osler's life.

Very sincerely yours,

*Walter P. Bowers*
