BOSTON, MASS.

June 14, 1925.

Dear Dr. Cushing:

May I express my deep appreciation of the inscription you so kindly put into the volumes given to by the IInd year Medical Group. Your personal inscription, in these much desired books, makes an unusually happy ending to my first attempt at teaching. There is only one flaw - namely that, like the "Life of Pasteur" and the "Life and Letters of Walter Hiss Page", they make the path of duty that sometimes leads away from these books and my easy chair, a very, very hard path indeed.

Very sincerely yours,

Donald S. King
