

Shaw Savill & Albion Comp^y Limited,

J J Manari

Boston to London

Monday 29th June 1898

Dear D^r Cushing,

I am taking the liberty, on very brief acquaintance, of writing to you about your "Osler". I've read the first vol. on the way over. In New Zealand, even though brought up on his "Principles" & "Requiem", you may imagine that he was more a respected name than a personality. You have supplied the want for us in a portrait that no other biography, in my short experience, paints. We are all under a debt of gratitude to you.

The voyage over has been good, with perfect weather & tonight we should sight the zigzag light. For a pilgrim such as I it will be like a glimpse of the promised land.

I shall probably be a week in London before going to Edin. to work for the H.R.C.

Hope to have the privilege of renewing my acquaintance with you with Dr Horax in the near future. With best wishes believe me

Yours sincerely
W. H. B. Bull.
