July 6. 25

Dear Dr Cushing

It was very good of
you to take notice of my review
of your Life of Oler. I was
not clear how I could manage
the second volume, but your
kind note put heart into
me & I have just corrected
the proof of a couple more
columns. I hope you will
find them as pleasant as
you found the last.

I was in Oxford when
Oler came - lived near
him, but never came
across him. I think I
left the summer he
came - it may have
been the year after; but
I never could make out

in three days - not being
a medical - why they had
sent all the way across so
many waters to get him -
home. The two volumes have
given me light. It must
have been a great labour -
yet you give the impression
of a great love accompanying

Again thank you

Very truly yours

Arthur Hoyle
