July 9/25-

My dear Dr. Crohnig

I have just finished your
"Osler", and I can not place it
on my bookshelves, without telling
you first, that I do not know when
I derived so much enjoyment from
reading a book, as I did during
the past week.

Just medically I am much
interested in the actual cause of
Osler's death (if you dismiss it with a
line or two). Can you give it to me
in a little more detail. I would
certainly greatly appreciate it.

With my kindest greetings

Very sincerely yours

Alexis V. Titchewitz
