# TIME

NEW YORK

July 16, 1925.

Dr. Harvery Cushing,  
The Peter Bent Brigham Hospital,  
Boston, Mass.

Dear Mr. Cushing:

Thank you for your good words about TIME  
contained in your letter of July 15.

The compiler of the review that you like  
was our regular Medical Editor, one B.N. Busch.

The "fellow who picks out the legends  
for the illustrations" is no fellow at all, but a  
group of individuals--a sort of supreme editorial  
council that sits in solemn judgment over each legend.

In our July 27 issue we shall publish a  
letter from a gentleman in Madison, Wisconsin, who  
claims that he, in 1884, could throw a baseball fur-  
ther than Sir William could throw a cricket ball.  
I enclose herewith a typewritten copy of his letter.

Sincerely yours

*Britton Hadden*
