Dear Chief:

Just got hold of a copy of your 'Life of Osler'. So I couldn't resist telling you how interested I am in the details of the life of that great medical man, and in the manner in which the story was told. As each new favorable press report has come out, I have felt increasingly proud to have worked with you. In my humble opinion, you have certainly done a very fine work.

I am still doing surgery and other things up here in the country. We see most everything and get a wonderful course in differential diagnosis. Results aren't so bad.

Best wishes,

D. M. Vickers
