Dear Chief,

Last night was a bit
sad as I finished reading your
books on Osher, which Dr. E. Libman
had sent to me - towards the
end I did hate to part with
him -

Liked the way you
did it - I believe I read it closely
and cannot remember seeing your
name mentioned over once -

Now I'm certain there
is a huge talent in you - to
do a thing so objectively -

Now too I'm certain
Tuesday, I'm either coming to
Boston (books under my arm) or I'm going
to send them for you to autograph -

On days like these I can
remember running out to Brookline
trying to beat Gil in tennis - please
tell him he is better than I temporarily
but to keep in training nevertheless -
my best to his wife and him -

So before breakfast -
please give my best to all the
men at the Brigham - and

I just know your
books on Osher are way
all the way there -

Sincerely -
Earl R.
