Dr Harvey Cushing
Peter Bent Brigham Hosp.
Boston, Mass.

My dear Dr Cushing:

You have doubtless received many a similar note from other appreciative persons. Perhaps I should not further afflict you, but I can not help writing to let you know the great satisfaction your biography of Osler has given me. I have just finished reading the wonderful volumes. Anyone, especially if he claims to be a physician, who is not inspired by the story of Osler's wonderful life, for him there is no hope. And you Sir, in my humble judgment have made all of us your debtors.

I never knew personally Dr Osler nor can I claim your personal acquaintance, but I can truthfully say that from both of you I have learned some things which I value highly.

Sincerely yours
Solomon C. Fuller
