In November 1925 while crossing the Bay I met a President of one of our State Colleges who inquired if I could recommend any books that would be especially interesting and suitable for young men. I replied that Cushing's Osler is a marvelous life. If I had my way I would place a copy of it in the hands of every boy in this land. The story of that life: Osler's start as a poor boy, the hardships he met, and what he overcame - would be an inspiration to every youth in America. The book ought to be found on the shelves of every college library.
