

September 4, 1925

Dear Cushing:

I can not help thanking you for the great service you have done doctor and others in bringing together the facts about Osler.

It is charmingly done and I have had great delight in reading it.

I have talked with Ned Streeter about the books and it is quite marvelous how you managed to condense the large amount of material.

Since I am your classmate I am wondering if you would be willing to autograph the first volume for me some time if I bring it to you.

Sincerely yours
William H. Robey
