WESTMOUNT
MONTREAL, P. Q.

Sy.
Aug 18th - 1925

Dear Sir Harry Cushing -

Pardon my
appearing again so soon upon your
horizon but the enclosed was sent
to me this week by Dr G. S. Mundie
(You met Mrs Mundie with me at
Mc Gill)

As you requested me
to send any reviews which came
into my hand I obediently comply
(not-always so tractable I hear
you say)

My own opinion is that
you have ample reason for all

action for damages against the
Paper which published such a
photo of you -

One can easily see it
was taken just after you were
liberated from Sing Sing or Mattaponi.

I am reading, in the biography
not half through 1st Vol. but all
those Dundas & Hamilton haunts
are so familiar to me. When
we lived in Hamilton I was
young and walked miles with
my husband and the Dundas
Valley was a favorite objective.

When I came, as a bride
to Montreal, Dr Oser had just
gone but Howard, Mac Callum

3

Craig, Campbell, Fenwick etc
were the names to conjure with

The Rodger - mentioned as one of
the 12 giving monthly social dinners
was my cousin's husband - and
many a tale I have heard -

Then, again, Dr Shephard was
my first physician and remain-
ed so till he made surgery
a specialty - and after that, you
will remember - in order to keep
in touch with him - I had four
operations at his hands - Could
any one show more devotion to their
Physicians & Surgeons than I have
done? God bless them!! I trust

these scribblings of mine do not
annoy - If they do be frank.
Put up the sign "Bridge closed"
& I will exist, even tho' it de-
prives me of a few chuckles -

I never want you to feel that
answering each one is imperative
You have already been most-kind
in that line -

Your interest in my progress during
past five years has been a mu-
derful incentive to continued
effort - and I thank you for it.

With best regards

Jane K. Dunn -

Bon Voyage - In trip to Edinburgh!
and return -
