Dr. Harvey Cushing,  
Peter Bent Brigham Hospital,  
Boston, Mass.

My dear Dr.Cushing:

Since returning from my summer vacation, I have been spending my spare time in reading your life of Osler. To say that I have enjoyed it is to express it too mildly. To those of us who only knew Osler as a great physician it is a delight to learn that he was in addition a real nobleman. I wish every hospital interne might read your book for its broadening influence would be of great service to them. I am

Yours sincerely,
