2219 CALIFORNIA STREET
WASHINGTON, D. C.

22nd June - 1926.

Dear Dr. Fushing -

I wish to thank you heartily
for the pleasure and profit I have
had recently in reading the bio-
graphy of Sir Wm. Filer, compiled
by you. I never had the
pleasure of meeting him, but many
of my friends here, have known him
personally, professionally and socially
and have told me of his charm of
his personality & the confidence he
inspired in every way.

As I am of Canadian ancestry for three generations on the Spencer side, and Sundas was my birthplace, the home of Sir William's family for many years and he during his boyhood - I am inclined in thinking that his parents and mine undoubtedly had common friends or naturally as my mother's family is English as I have been much in England with relatives there, his experiences in Oxford & London were most appealing -

Knowing your immediate family (during my twelve years in the Bathway - Brown School) & your wife as a young girl, I have been greatly interested in your

distinguished career. We congratulate you
and him, because of the great ^{your life} value ₁ has
been ^{and} will be to the world.

Recently I have had a visit from a
nephew (almost a son to me) who has had
an unfortunate post-operative experience -
By the suggestion of my doctor (Dr. Wm. P. Revere)
who has been his occasional consultant,
he may apply to you for direction during
his visit for a short time in Boston.

I have provided him & his wife with a
card of introduction, should they decide
to try to see you.

With kindest remembrances to you
Mrs. Lulling & all your family, I am
Sincerely yours -
Mary L. Spencer -
