Dear Dr. Ogden

I am really horrified to find in my desk an envelope addressed to you & the letter never written. I was so pleased to have the photograph of your mother and the dear baby - Thank you very much for remembering me. Your mother looks so well & the baby a darling. When are you coming over? Can't the children be left? I can imagine no greater pleasure than to welcome you here - How you would love it - Dr. Osler came home this afternoon from a business meeting at Christ Church & said "This is a delightful life & place - so many nice men." Isn't it quite wonderful how he adapts himself to these changes? - This life combines town & country which is such a comfort to one - for I love the garden & the birds. Revere has gone to Winchester and we are desolated. Fancy that mite whose photo' you did so well - "a Winchester man". He is very happy and has fallen into the life very easily. He is as tall as his father and 14. He doesn't care for his books but loves fishing - butterflies & cricket & is a good bowler - We hope this will keep him at Winchester. / Muriel Howard von Eberts has four children & is a model mother & wife - Marjorie married Dr. Fitcher & is radiantly happy. I am so glad to hear you appreciate Harvey Cushing - he is a treasure & so is his wife - You may remember Miss Haven - She married Mr. Cochran of Phila. much older than herself & is very happy too.

My love to you all.

Very sincerely,
Grace R Osler
