My dear Harvey:-

I have heard from the College of Physicians in London and
W. O. became a Licentiate ^{of} the College in 1873. He took the examination ^{for}
and was given ^{the} Membership in 1878. Undoubtedly he took the Licentiate so
that later on he could take the Membership. ^A ~~The~~ condition for Membership
is that the individual must have a degree which entitles him to practice in
England. I think I wrote you giving a reference to an article in which
he had used the title "M. R. C. P."

With kind regards,

Yours very truly,

Thomas McCrae
