My dear Cushing

Haywood got his
information from me - Dr
Osler took small pox whilst
attending the S.P. Hospital -
I do not think he had any
official appointment but was
merely asked to do so by the
Medical Board who had
to provide the service -
The same with pathology
as Prof of Institutes of Medicine
he was never given all

seen a paper on Oste by Rogers & Adams
Calacado? Smith found in Denver
journal? was at School with him. The

Memorial number of the Journal is now
in my hands & will be sent this month
belongs by Miss Abbott - & perhaps
there were not included in the first paper

prof -

Yours truly

W. M. H. H.

The post-mortems to the
Each member of the Medical
Board was supposed to do
his own post-mortems -

No doubt he volunteered
for both services I do not
remember for I was not ap-
pointed to the Hospital as
out door Surgeon until 1878.
I was in the country for the
week end I could only find
two recent letters. The others may
possibly have been burnt some
time ago with others I had there
If they turn up I will send
them to you - Have you
