Dear Schäfer,

Please send me within a few weeks the names of those members of the profession - so far as you know - who intend coming to Canada in August. I should like to arrange for their proper accommodation. I hope to spend three months in Germany this Summer and should like to plan the return trip with you and Mrs. Schäfer. You must let me know what time you propose leaving. At a meeting of the Executive ^{Council} yesterday it was announced that the R.R.'s would convey the members on the regular excursions before the meeting, so that if you intend coming early in August, you could see the country beforehand. The important lines give passes and I suppose you could go to the Rockies beforehand, although you could not do the trip comfortably under 16 or 17 days. The Canada Pacific will take a party of 150 members in Pullmans after the meeting. I am glad to hear that my friend Cameron is with you at Univ. College. He is a good man. Mills is in Strassburg and will be there for five or six months: you may see him on his way home. Was that John Sharpey's photo you sent? What a splendid fellow! and what a picture of good humor and content!

With kind regards to Mrs. Schäfer,

Yours sincerely,

WM OSLER.
