Dear Ros

Journal of May &

Your letter came on Monday -
Glad to have them. April No never
turned up. Have written to Bastien
Hope he will come but he wrote to
me saying that he could not.

Shall be most happy to play distinguished
strangers at 49 Union Ave. ^(Ponce Avenue in Montreal) Came
here last week - very glad. Wish
I had done so at first as everything
is most auspicious in Coburn's
Laboratory. Weigert is in charge. C
being ill with gouty nephritis.

I go there at 8 am work until 10.30 at
Bastien, then go to Leuckart's Laboratory

Association is then. I shall try to bring out some culture
wh. will do for itself? - The only trouble is that the best way
destry them. I do hope that Victoria will be able to manage
for Mull's a impetly to live at the college. How I manage in
these new! breakfast has about \$4000 a year, with a splendid
set of apartments on the 3rd floor of the Institute. It seems
conceivable at first to see the upper flat devoted to the families
of the professors & students - but it seems true and money. Perhaps
next winter the Government might put a double row of
and give me the upper one. What a device for managers back
has struck up!! I have papers looked back. I might see for
Murchison's tent & telephone has been put in the college.
I have a letter half ready - will be up by 1st. or a day or two

until 1. Pm when I dine - return
to Weigert or go to Jurris assistant
as the Veterinary School. Wagner's
Med clinic here is good. I have not
yet been to Fleckzig. The buildings
here are very convenient. I am living
opposite the Zoologisches Institut -
very comfortable pension - much
more so than the Berlin one & at
2/3 the cost. Lord! don't I wish
I could live all the year round
for 120 marks a month (beer included)
here & not for books &c it would
be a great saving to live abroad
all the year. I have asked Howard to
get the little inner room rigged up
for the Koch apparatus which we
ought to have so that we could have
some cultures under weight when the

will do for August. Hope the
Surf Congress one & Koch dinner
are both in this one. If that latter
came too late, don't put it in the
July one as it will be very stale
I had + hear of the preparation for
the C.M.S. Larrison Tait will give an
address in abd Surg. & I have asked
Sunderman (with Muller's consent) to
give me a medicine. I have had no
word from him yet tho it is some weeks
since I wrote. I shall write again
I have been July 12th. BK of Montreal
or 25 Russell St. will find me in tandem
Let me know if I can bring out anything
I shall send out a couple of trunks from
here - The writing is awful. but the
pen is worse

Yours ever
Wm
H. Blair.
