Dear Ogden

Our letters have crossed - Many congratulations. I am so glad.  
It is a nice subject and you know it so well from O. M. W's. lectures.  
I really think you will find the grinding which you did then of some service.  
Do you see the C. M. & S. journal? if not I will send you Stewart's lecture  
on Digitalis. Shall be glad of the photos.

Yours ever,  
W. O.
