Dear Warren,

I am so sorry that I shall be away next week and shall miss your lecture. I am going to Montreal on Wednesday to help at the opening of the New Buildings of the Medical School. ^{Oct. 22} Pepper accompanies me. You will have a very good audience and I am sure, a very pleasant visit. It has grieved me to refuse several invitations to meet you.

Hoping to see you in Boston during the coming winter,

I remain

Yours very sincerely,

Wm. Osler.
