W.O. to J. George Adami.
Jan. 14th, 1904.

(typewritten)

My dear Osler,

Most hearty thanks for your note. Yes I should be glad to be present at the Thursday evening discussion. I became so unfortunately involved in that wretched Clark Bell affair and was, again, one of the means of establishing the Bacteriological Section in the Lewis Congress, so that perhaps I ought to be present. I do hope that the meeting will bear good fruit. It is, however, not necessary that I should be there and only if it will not inconvenience you and Mrs. Osler will I put in an appearance some time upon the Thursday afternoon.

Yours ever,
