Dear Professor Thomson,

New Year's Greetings. I have come across a good deal of questioning and heart-searchings in odd ways the last day or two re the Professorship of Med. in Oxford.

C.W.MM.? is more of a favourite here than other people in several quarters. But I write chiefly to find out if you know (I expect you do) of a circular just issued which I have seen, though I have not yet received a copy. It is as follows:-

Regius Professorship of Medicine,
University of Oxford.

A meeting of Oxford Medical Graduates will be held on Monday next Jan 5th at 5. o'clock, at the Medical Society's Rooms, 11 Chandos Street, Cavendish Square, W. to consider questions arising out of the vacancy created by Sir John Burdon Sanderson's resignation.

Post time.

Church in the chair.

E.W.A.Walker.
