Dear Mr Phipps

Thank you so much for the Penn book - & for the introduction to so charming a companion. I had never heard of it. How strange that it should have been so neglected I suppose you will soon be on your travels again. I have just returned from Harvard where I have given the annual Ingersoll lecture on Science & Immortality I shall send you an early copy, after Houghton & Mifflin issue it. With sincere regards to Mrs. Phipps & your daughters

Sincerely yours

Wm Osler
