

(Letter to Edward Milburn, Esq.)  
(typewritten)

CUS417/101.3  
Sept. 27th, 1904

BALTIMORE

De r Ned,

Glad to hear that the poor laddie is better. Tell the doctor not to hesitate to give enough morphia at night to keep his cough under control. Possibly the inhalation of the creosote would help it. The form of inhaler which you mention seems excellent. Poor boy, he seems to be in a bad way. I am so sorry for you all. Please let me hear how he gets on from time to time.

Sincerely yours,

WM OSLER
