Dear Barker

In a weak moment I consented to edit for Lea Bros a new System of Medicine. McCrae will do all the rough work as assistant editor. I would like you to chip in with your pen - a good introductory section to the Nervous System - like one of Cohnheim's chapters - would suit you - & me. Anything else? Throw an eye on the question of classification of the Diseases of the N. S. for such a system. What modifications would you suggest in that given in my text-book. I am sweating away at a new edition - am almost rewriting the Infectious diseases and knocking many of the other sections to splinters - I am tired of the sequence of paragraphs!

I hope all goes well with Mrs. B. & the twins.

Yours ever,  
W<sup>m</sup> Osler
