(Handwriting)

(To Hon. Featherston Osler)

S. S. "Cedric"  
August 8th 1904.

Dear Fen.

I have accepted the Regius Professorship of Medicine at Oxford - a quiet dignified position, from which my old friend & teacher Sir John Burdon Sanderson has just retired. I do not leave until next May. It will be a great change in many ways but I have many friends in England & Grace has been anxious for many years to have me reduce the pressure of work. I have a number of uncompleted works on hand, the fruit of my clinical experience which the comparative leisure of the next few years will enable me to complete. In many ways it will be better for the boys education I shall go directly to Pointe a pic to join Grace.

Your affec bro

Willie
