6.10.1919.

Dear Sir,

Some time ago you asked for reference in English literature to snuff-taking & tobacco-chewing. About ~~the~~ that quoted in my letter to "the Observer" taken from Dekker's Gull's Horny-book where the words "the ladle for the cold snuff into the nostril" are used, I could not recollect a reference. Since then I find several references in Howell's Familiar Letters especially regarding snuff & chewing page 522 vol II in Jacobs' edition.

However, the purpose of this letter is to tell you that I have just acquired a complete set of "Cope's Tobacco Plant" a monthly periodical published in the seventies. It is a regular mine of information on matters pertaining to tobacco & if you have not seen this publication

MS. A. 1. 1. 1. 1.

"Lambton"

Letter to

Dear Sir

I should be delighted to send you

my copies for you a present.

Yours faithfully

Edw. Davis

Sir Wm. Osler Bart.

Oxford.
