13 Norham Gardens.

W.O. to J. George Adami.

8.x.19.

(p.c. hand-written)

Many thanks! I am grouping the Fam. and Her. diseases in one section in my new edition and will put a brief introduction. Mendel~~ian~~ly they are erratic. I know the papers you refer to. Stop over here some time for a week on your way back from London. The Oxf. and Liverpool service is very good - or will be. We are snowed under by students.

My greetings to Doncaster, and to Caton, Glyn and our other med. friends.

Wm. O.
