(Dr. F. J . Shepherd)

Postcard (Mailed Nov. 22, 1919)

13, Norham Gardens,

Oxford

You will have had my letter of a couple of weeks ago telling of my illness.

'Tis evidently an influenza attack as the Pfeiffer bacilli are present now in the sputa. I am better tho. still in bed & coughing in paroxysms. No

fever. Time I dare say will pull me thro. Meanwhile I am very comfortable.

Love to the girls. Grace sends love.

Yours

W.O.

Some good hauls lately in old books. My incunabula number now over 150, many more than any medial library in the country.
