

CVS417/39.28

Dear Chatard,

I hope all goes well with you and the lassie. Love and New Years Greetings to you both.

I am sending to the Avicenna Club a recent photograph of Avicenna's tomb brought to me by Dr. Sa'eed of Hamardan. You will see that it is sadly in need of repair. I am in communication with the British Legation and the head of the American Mission there asking for an estimate. If at all reasonable, it would be nice to raise funds to put it in order, and I would like you very much to act as Treasurer for any American subscriptions. I will send you full particulars later.

Dr. Sa'eed brought me a superb MS of the Canon written in 1190. Dis you ever see the Traités Mystiques which was translated by Mehren, four fasc. published at Leiden in --- . They are sure to have it at the Surgeon General's Library. It would make a good subject for the Club.

Revere growing and getting ready for College.

Greetings to your mother,

Dr. Chatard,  
Baltimore.
