Craigleigh,
Rosedale.

15 Sep 1921

Dear Mr Cushing,

I am afraid that I have nothing new to have seen only a day or two ago I received from Baker the copies of the letters etc. in connection with that baby. Baker was the head of the New York office at the time, therefore all the papers Baker sent me nothing new. I cannot think of any

They are of interest on that
trip, for since then I have
found on the same ground
with the C.P.R. direction, not
thirty-three, the directors
took a special train &
spent from three to four
weeks in the west & the
mountains in Sep. The
Young direction are now
away with the P.M. & C.P.R.
on same road -
The papers enclosed may be of
interest to you, but cannot be
of use otherwise.

Yours sincerely
Ernest Horn
