The Malana Story

Apr. 4 1886

1 Malana Story ¹⁸⁸¹ ~~Progress and general description follows.~~

2 ~~Refers from the first time last W.O. to some studies 1st case in his note book April 20 86
Saw ^{by mental bodies} ~~organisms~~ ^{one with} ~~inlet~~ ^{to some cases} ~~connected.~~~~

3 ~~Continuation of ref. W.O. & general description~~

4 ~~1st case in notebook Case ^{XVII} July ~~1886~~ 14 1886~~

5 ~~Ref to Bulletin Columbia 5 Years,~~

Bygo again moved or return ~~Proceedings of Univ. Hosp. Case XVIII Sept 15 1886~~

6 Case XXII showed characteristic forms distinct & abundant on several examinations
and for that time on their was little question

Not quite appears that he saw a figure resembling flagellate forms.

and by the end of the year quite convinced of finding organisms on mental all else.

(d) Oct. 28th 1886 some results at University of Phila. Part Sec Sam

In the spring of 1887 he began a new series. He begins to note the types
of children's teeth etc.

7 Some paper before Part Sec of Phila published Biog. Mar 12 1887 Haemolysis of Malana.
which states the matter in English annals. (How about Anna?)

8 ~~Ref to Bulletin ^{Dec} 1884 his second paper.~~

Mayer set to work.

McCullum studies.

= some is address before
Part Sec of Phila
Sandis

Of. W.O.s in acct. Mar 1890
