My dear Ogden

Your present was most welcome. I began the 1st vol. at the Club one day & was much fascinated, but the book was returned to the Library before I had time to see it again. I shall linger over them for the next month at breakfast & often thank you. Have just got back. May is better - well in fact. All in good spirits at Montreal.

With best wishes for '89.

Yours sincerely,

Wm. Osler.
