Dr. J. H. Musser
209 W. Monument Street,

11/12/89

(handwritten)

Until eleven AM (Printed)

Dear Musser

When are you coming down to spend Sunday with me? Bed-room here ready and very much of interest to see at the Spital.

Did you not publish a paper on low temperatures in Tub. peritonitis? Primary gall bladder cancer the other day & that extraordinary form of 2 day involvement of the liver wh. Harnot has described. Love to the chicks - & their mother.

Yours

W^m Osler
