Sat. 14th 1890

Jaccoud - La Pitié

Quatrefoyers at Jardin des Plantes.

An old pleasant looking man with a nice voice. Has par. agitans in hands. An active and well studied (?) lecture against Darwin. Might have been delivered in 1860. All the old arguments, re-hashed.

5 p.m.

Bouehard. another excellent lecture on Infection. Subject of immunity considered.

Que at Hippodrome.

Sunday. 15th.

Madelain - at church. Procession of the filles de Marie - remarkable how plain these middle class

Parisian girls are. Solon. Arc.

11th Wed.

Peter at Hospital Neckier.

1/2 hour before went med wards,
Saw 68 cases, very few remarks - 30
men at least. In amph wh. is small
& dirty & usual seats. Lecture on a
case of Tub. Men. & showed the
specimens & (2) on a case of pyemia
from abortion. Chiefly a tirade
against germ theory - old fool.
thought that the size of the wound (?)
out of all prop

An old man. quite grey.

Pm. Perrau E. on Book of Daniel.

Old man, stout, looking like a priest -
smooth face - very heavy cheeks &
jaw. large nose, exp. good, genial,
often laughs, voice not over sweet.

Professor R ^{othlen (?)} is the type of a
senior Professor which might well be
more common.

Heidelberg altogether too attr(active)
to spend much time visiting Hospitals or
Laboratories and we yielding willingly to
the seduction of the place we passed
four delightful days with long walks
over the mountains "even(ing)s at

Nothing is more inspiratory than
to see a veteran in the van. Sooner
or later the temptation arises to a
teacher.

Berm

Sanghams - Hist. & Anat.

The p. m. room - table - towels at the arm of the seats, The sawing of the long bones -

Women - at first sehr tüchtig & good students then a period when very indiff - they seemed drawn from the lower classes. nicht geistlich but within the past few years the quality has improved.

Sahli - a young man.

Room well arr. seats comfortable about 84 students 18 of wh were women. Maj. young, Brunettes, not a Trotula among them, it seems, & alas I sat behind one who had a recent Tauchnitz novel.

Zur Prof. Eschorst -

See — with students a —
— is large & he — showed us
thro the male dept. many cases
of Pneu. A remarkable case of
marcolepsy + catalepsy(?) The clin. labor.
are fine large rooms. Not so
conveniently arr (anged) as in Bern
but there was one speci (al) arrangement
at whi I have often — — a
chem. not a md has charge of the
chem. dept. Bacteriological set
aside also. There is one special
feature in the m. dept. the —
are isolated - a separate building
with the typ. ^(hoi'd) &c. Prof. R. also
away but Docent. showed us the
dept. wh is well arrged & equipt.
