(To Dr. Walter Baumgarten)

Johns Hopkins Hosp., Baltimore,  
October 3, 1890.

Dear Dr. Baumgarten:

Thanks very much for your prompt reply. I have written to Mrs. Kaim, asking for details about her father, for whose memory, these many years, I have had the deepest respect.

Judge Baby has promised me full details with reference to the last days of St. Martin (Beaumont's subject) who died only a <sup>few</sup> years ~~er~~ so ago. I have a photograph of the old sinner, in his 82nd year and I shall, at an early date, make it a text for a short account at our Hospital Medical Society, of the life and work of Beaumont.

Welch has just returned. Councilman, ~~poor fellow,~~ is on the sea with his wife, who is I am afraid in the last stages of consumption. (Lafleur is in the woods enjoying a well earned holiday after four months' hard work in my absence. I suppose there is no chance of seeing you before our next meeting; but should you come East remember I always have a room at my house at your disposal or my room at the Hospital.

Very sincerely yours,

Wm Osler
