BOYLSTON & EXETER STS.

BOSTON, May 15th 1891

CUS417/87.12

My dear Osler,

Dr F Minot has resigned the chair of Theory & Practice & we are looking round for a successor. I suppose there is no more use in trying to induce you to consider the subject than there was when the chair of Clinical Medicine was vacant

a few years ago but
still I venture to
enquire whether there
are any circumstances
under which you
would like to come
to Boston & share our
work. I think we
shall soon adopt a
four years graded
course & your assistance
in organizing the in-
struction would be very
valuable. There
would probably be an

difficulty in getting you otherwise
at one of the hospitals & it is the
feeling of the faculty that the teaching
of theory & practice should in the
future be much more clinical
than it has been in the past. Drop me
a line if possible before next Wednes-
day as there is a committee meeting
then to consider the question.
Yours very sincerely
W. P. Bordiech
