Dear Ogden

That will be delightful. It is so much pleasanter to travel with a congenial companion & we might see one or two of the W. Italian towns together before you go to Munich. The \$100 berths are very good and we save at least \$50 by this route & avoid a very weary R. R. journey.

I telegraphed you today & if I get a favorable reply I will secure berths 151 & 152.

Yours sincerely,
Wm. Osler.
