Dear Dr. Darrach,

I haven't had such a cold for years. I have been in bed ever since Friday.

It was a great disappointment to me not to be able to meet you all, but I have written to Dr. Boker to ask whether I cannot have it (the club) on the 27th. Biological

You have never paid me a visit down here in this God-forsaken town. I am sure you would be interested in some of our arrangements over at the hospital - I shall look forward to having you here in the spring.

Sincerely Yours
