(Dr. H. V. Ogden)
1 West Franklin St.,
Baltimore.
29th November '94.

Dear O^r

Very glad of your letter this morning. You really must come on in the spring. Why not to the Am. Med. Ass? or better to the Ass. of Am. Phy. towards the end of May. Mrs. O. says that my friends do not like her - they never come now to stay with me - so mend your ways soon. I shall get Fitzgerald's letters - I peeped into them at the Athenaeum Club this summer. I am very busy on some of the confounded composite text books & systems. J. C. Wilson's Handbook of Treatment. Dercum's Nervous Diseases. Clifford Allbutt's New System & Loomis's New System - Deuce take them all. I shall look out for your art. Where?

Yours ever,
Wm. Osler.

Mrs. Osler send kind regards.

in characteristic fashion
He continues to jest ^{about} his 'art.' or *Alcestonia* like the case was freely published, should after the *Infleus* ja coming meeting of the Physiological Assoc. *Seemles a case to*

J. K. Dercum's "Text Book on Nervous Diseases" by Livingston
Anthon, 1895. contains a chapter by Osler on Infective Diseases.
J. C. Wilson's Handbook of Treatment
Allan's System
Loomis's Nervous System.
