

08 1895

2nd Edition. I had made many corrections &c in the interleaved copy of the 1st Edition but I did not get actively to work until Jan. 1895. They went to press about June 1st. There were many delays. I read the proofs of the Index about the middle of September. The work was not issued until the 15 of October. There was a long and inexplicable delay in the binding. (W.O.)
