Dear Ned

I was very glad to have your photograph - you look as natural as ever, & not much older. We are both getting on towards the half century I am pegging away as usual, very happy in my professional & college work. Mrs. Osler had a small boy about 8 weeks ago which is a comfort. Our other baby died when a week old. This one looks durable. I suppose your chicks are growing up fast. I hear of you occasionally from doctors & patients I wish you could take a trip southward & stay a week or two with me. I send you a couple of papers which may be of interest

Your old friend

WM OSLER

It came a month later he writes again:
