

(Typewriting)

(To Dr. Harry Friedenwald, Baltimore)

No. 1 West Franklin St., Baltimore,
Oct. 21, 1896.

Dear Mr. Ophthalmopod:

I have referred a little girl, Stella Eiseman, who consulted me today, to you. She is chlorotic (about 55 per cent), with headaches, backache, etc., and I think possibly should have her eyes overhauled. I have given her mother some general directions about her case, and ordered some Blaud's pills.

Sincerely yours,

W^m Osler.
