Dear L.

I knew that you too would soon be "in the toils" It is inevitable, make the best of it, get free for two months each year, and look forward to doing nothing but consultation work at .45 I shall be in Toronto on Thursday the 30th & shall leave for Baltimore on Saturday. Come back with me stay a few days & take N.Y. on your way back. Graham has written to me saying that you are to be with him and asking me to a reception to be given to you. I shall be delighted. My address in Toronto is 83 Wellesley St I shall be so glad for you to see my mother - who has her 90th birthday next Monday.

The Introductory was A.I. several points in it pleased me greatly, as out of the ordinary line. You should see the young Doctor in Thayers lap before the fire at this moment He is in fine condition

Yours,
W.O.

Dear Lafleur. Can you tell me about this? Does it refer to your P.V.H. appointment? Do you recall anything about the Toronto visit and W.O. at the time of biographical interest? H.A.

Refers to a statement I made in a letter saying that I was getting too busy with practice & found little time for reading. If I remember rightly W.O. was prevented from going to Toronto at the time he mentions. At any rate I am pretty sure I did not meet him there, & I am quite sure I did not meet his mother.
